\$150 each for Veteran plots, must provide copy of DD214, limit to the purchase of two plots within the Veterans Section.

The City is not responsible for items left at the cemetery, please keep this in mind when placing items in memorial. All items outside the footprint of the headstone are in violation of cemetery regulations and will be removed when the park employees clean and mow the cemetery. Flowers or decorations that have deteriorated and become unsightly will be removed from the headstone.

We are in the process of transferring all of our Cemetery Records into new software. You can [search for gravesite locations here](#) to view an aerial map. This map will only show locations of burials, not ownership of plots. Recent burials are updated in the system prior to the service, older burials are updated as we have time. We will update as sections are completed.

In addition to the mapping feature, the new software allows us to create virtual memorial pages for your loved ones where you can post a photo and obituary. If you are interested in adding these features to your loved one's page, please contact Tina Rodriguez at 405-390-5110 or by email at trodriguez@choctawcity.org Photos will need to be jpeg files and obituaries need to be submitted in Microsoft Word. The City reserves the right to edit or refuse images or content that might be deemed offensive. There is no charge for memorial pages.
