Residential service guidelines:

Waste Connections of Oklahoma is proud to be your new trash service. Here are your new carts and a few guidelines for placement. We will be using the automated side load truck system for your service.

Poly carts should be placed with the **handle facing away from the street**. Your trash container will be blue with a black lid, and your recycling container will be blue with a yellow lid, and will outline the acceptable items that can be placed in the recycle container via a sticker on the lid. Carts must be placed at the curb before 6:00 a.m. on your service day or the night before. Service will start the week of July 1st.

- Please place within 2 feet from the curb. Please do not place your cart in the street.
- Carts should not be placed too close to mailboxes, fences, parked cars or other objects.
- Only your poly cart will be picked up on your regular service day. **No other trash cans please.**
- Items cannot be placed on top of the cart, as any items placed on top the cart may fall to the ground or allow animals to scatter your trash.
- Please do not overfill your cart so that the lid will close properly.
- Bagging your trash before you put it in your cart will help prevent blowing trash when it is dumped.

If you need an additional cart, they are available and may be ordered by contacting the City of Choctaw at (405) 390-8198

Observed holidays include New Years, Thanksgiving, and Christmas. If an observed holiday falls on a week day, we will run a day behind for the remainder of the week.
